

## Practical no: 8

Name: Saloni Vishwakarma

Batch-Roll no: C1-13

Subject: Computer Security Lab

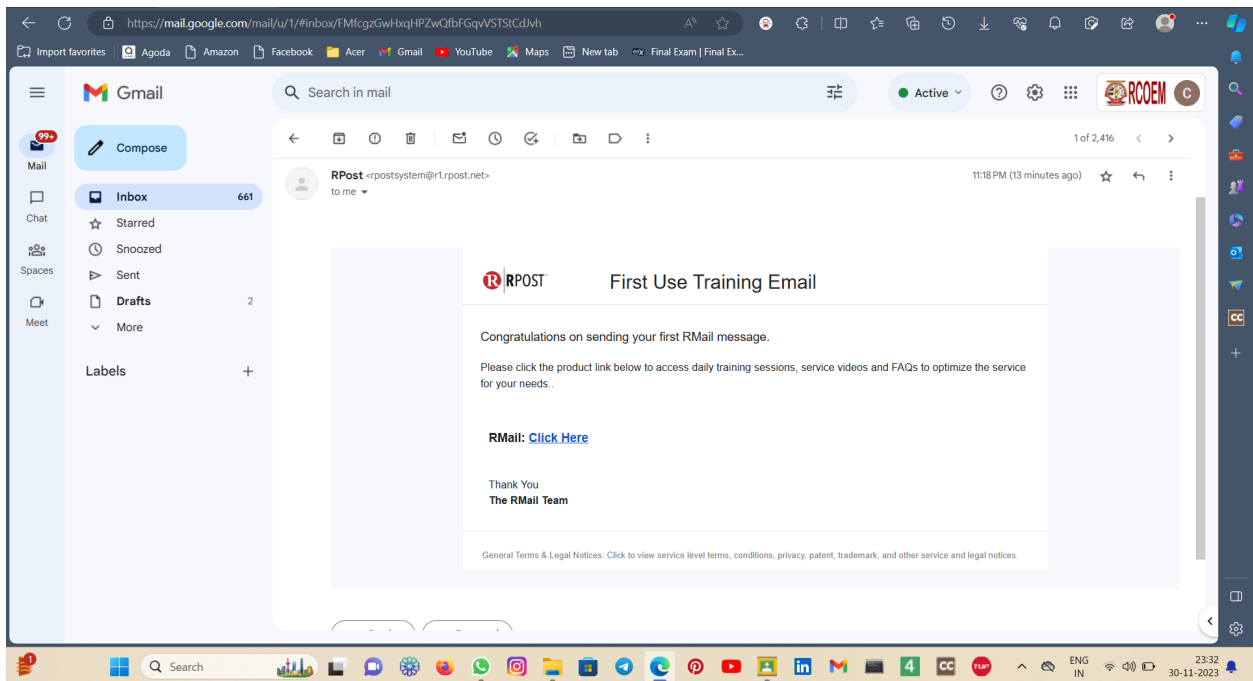

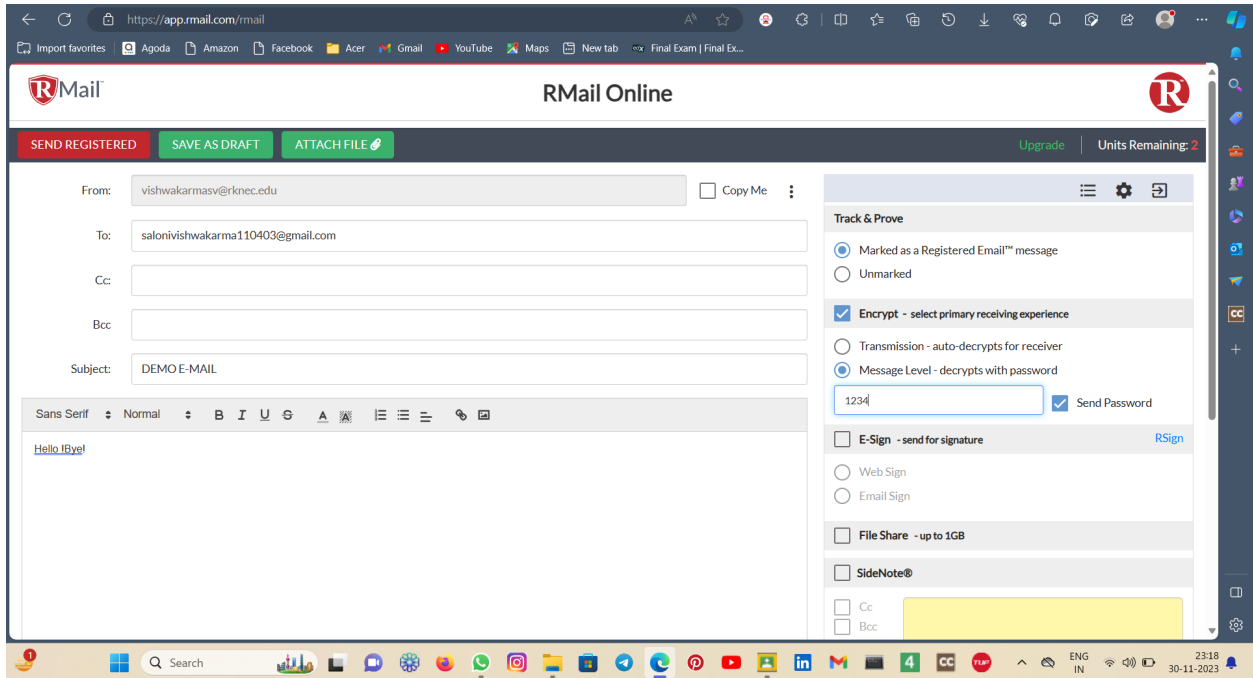

Date of Execution: 30 Nov 2023

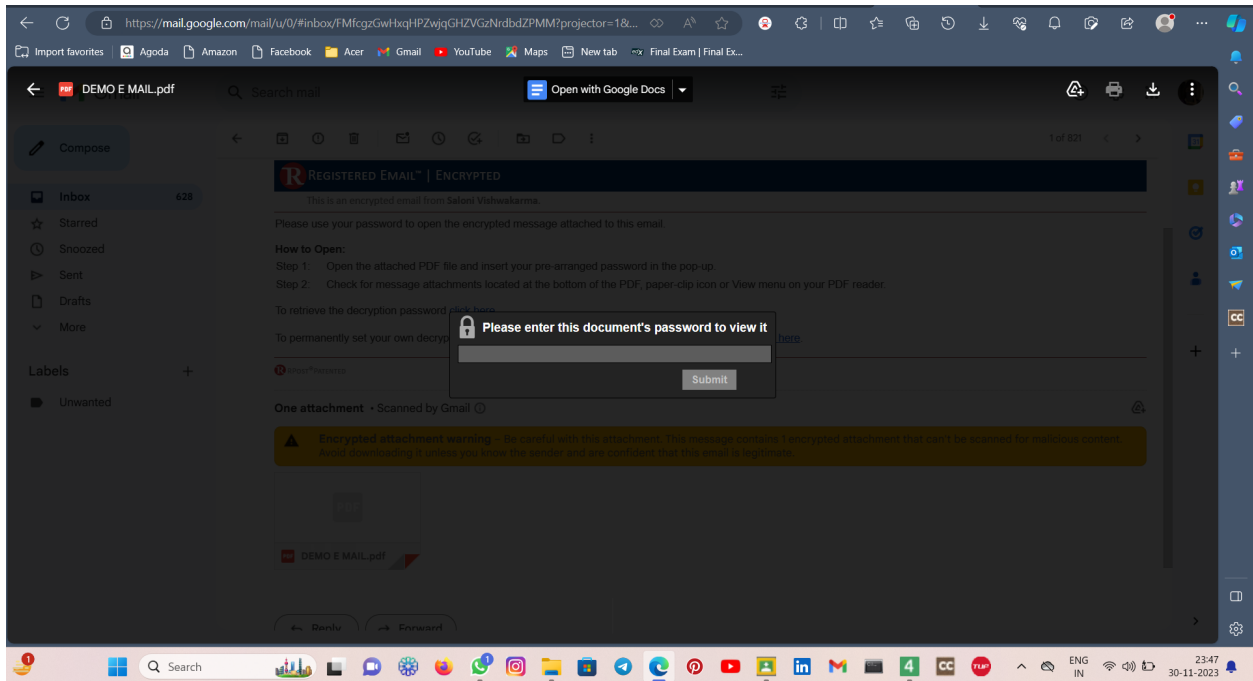

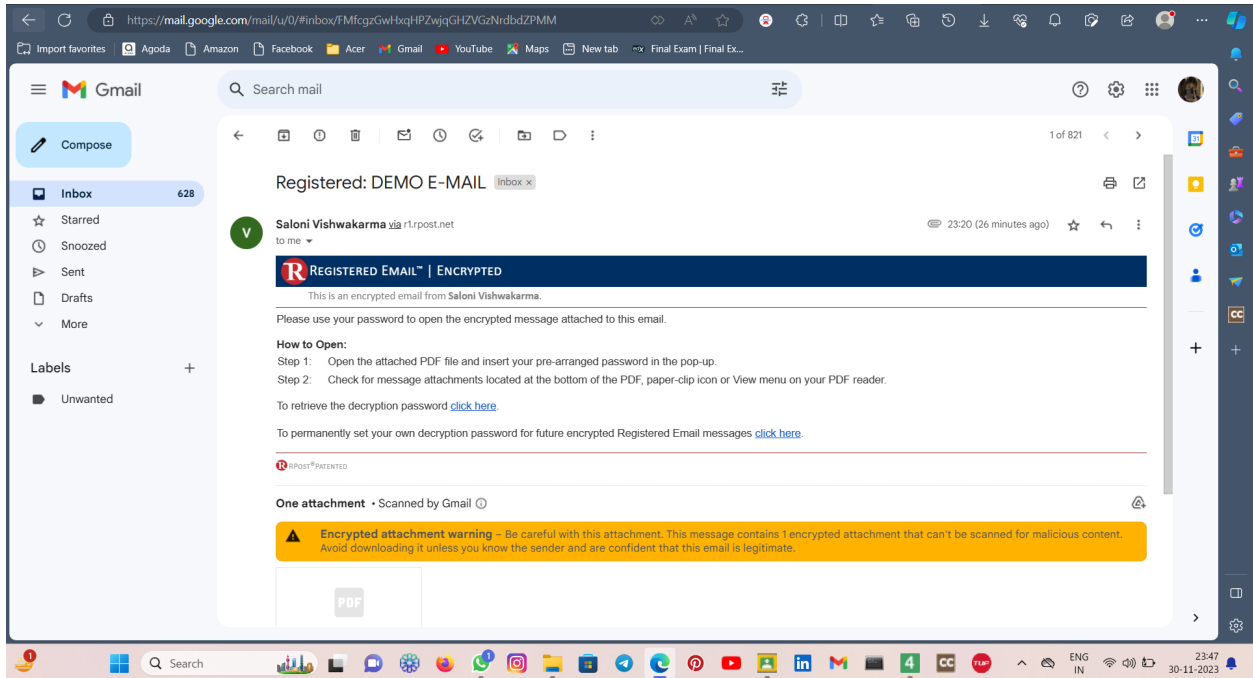

**Aim:** Demonstration of Rmail web services to secure emails.

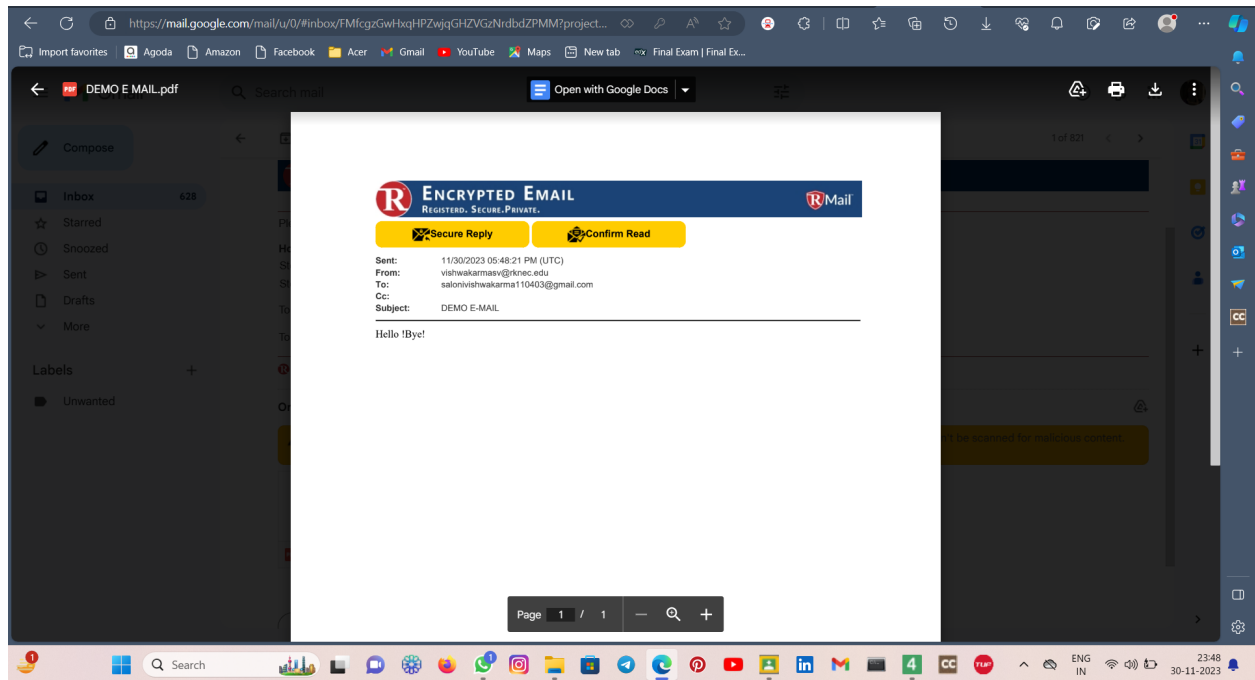

The screenshot displays the Rmail dashboard interface. At the top, a red header bar contains the 'RPOST ONE' logo and the tagline 'R1: One Install Does It All™'. A dark sidebar on the left lists navigation options: Dashboard, Most Popular Apps, Curated Training, All Training Videos, Schedule Live Demo, Support Center, Tech Essentials Tips, and RNews. The main content area features three large service tiles: 'RMail: Encrypt Email & More' with a 'Quick Send Secure' button, 'RDocs: Document Security' with a 'Control or Kill After Sent' button, and 'RSign: E-Sign Made Simple' with a 'Full Featured E-Sign' button. Each tile includes a brief description and a 'SEND NOW' or 'E-SIGN NOW' button. Below these, there are sections for 'Install Gmail App' and 'Plan Details'. The 'Plan Details' section includes a table with the following data:

Plan Name	Plan Type
RDocs Default	Individual
RMail Free	Individual

The bottom of the image shows a Windows taskbar with various application icons and a system tray indicating the time as 23:14 on 30-11-2023.

**Conclusion:** We have successfully demonstrated the use of R-mail web service to secure emails.
